

## **KA247 USB TYPE C-C 480MBPS 2METER 240W – KAMEHA**

The Type C to Type C cable 240W is the latest certification mark scheme of USB Power Delivery 3.1 specification. An upgraded version of 60W/100W, one 240W USB C cable can replace all other charging cables. Backward compatible with lower power requirements like 180W/140W/100W/60W and below. (NOTE: Please be aware that a C port adapter with the appropriate power is required.)

This 240W USB C Charging cable works seamlessly with Laptops(2022 MacBook Pro, etc), Cellphones(Samsung S23/S22, Google Pixel, LG, etc.), Tablets(iPad Pro, etc.), Switch, Steam Deck, and more. Data transfer speed is 480Mbps and can transfer a 1GB movie in 30 seconds, but only USB 2.0, not USB 3.0/4.0 or Thunderbolt.

**Wattage: 240W**

**Speed: 480MBPS**

**Video: Not support**

One charging cable for all your  
type-C devices

Support up to 240watt

## Application Example (TYPE C)
